Ecosystems: Food Webs and the Energy Pyramid

Here is an illustration of a food web. Use the diagram and your notes from class to answer the questions below.

Pick one food chain from the web above and draw it below.

Label the producer and consumers. Be sure to include the orders of the consumers.

Where does the initial energy for this food chain come from? _____

Draw an energy pyramid using the food chain that you chose in the space below.

Is energy gained or lost as you move up the pyramid? Explain your answer. _____
